FROM

→ TONY GALLEGOS, DOGM

SUBJECT

M/047/010

REFORMATTED PLAN - SURETY ESTIMATE

DATE

Oct. 15, 1992 ~0920

→ PAGES 4a, 4b LIST 35, 1-ACRE MINE SITES, BUT PAGE ~~4~~⁴ OF MR-LMO LISTS 33 ACRES, EXPLAIN(?). - SITE LE-3 WAS RELEASED, SITES LE-7 & E-31 ARE 1/2 ACRE EACH ⇒ 733.

→ THE 113.9 ACRE FIGURE DOES NOT AGREE WITH THE TOTAL FROM FIGURES ON PAGE 10g OF THE SURETY ESTIMATE. - TERRY WILL FIGURE OUT THE OVERLAP AND/OR ERROR & GET BACK TO ME. → THE SEEDMIX ON PAGE 9 OF THE MR-LMO DOES NOT MATCH THE OLD PAGE 10b SEEDMIX. EXPLAIN. - PAGE 10b WAS THE SEEDMIX FOR THE TESTPLOT(S). AFTER 1985 THE TESTPLOT WORK DISAPPEARED. TERRY COULD FIND NOTHING IN THE FILE REGARDING AN AGREED UPON SEEDMIX. HE DOES NOT HAVE A PROBLEM ACCEPTING A SEEDMIX RECOMMENDATION FROM DOGM OR USING THE MIX RECENTLY SUGGESTED FOR THE REVISION. → I WILL DISCUSS w/ HOLLAND. - WHAT IS THE PERMIT STATUS? → AFTER THE SURETY & SEEDMIX ISSUES ARE RESOLVED, I BELIEVE WE CAN LOOK AT SURETY REPLACEMENT. I DON'T BELIEVE WE WILL REVIEW THE PLAN AS A BRAND NEW ^{SIGNED} SUBMISSION, BUT I WILL DISCUSS THIS WITH WAYNE.
